

SAIPRIYA K

Delmar, NY | +1 (518) 528-0245 | priyakja76@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

- Full Stack Developer with 4 years of experience building scalable full stack web applications using ASP.NET Core, React.js, and SQL Server, delivering end-to-end solutions across frontend, backend, and database layers.
- Improved application performance by optimizing RESTful APIs, EF Core queries, and SQL Server indexing, achieving up to 20% faster response times and 40% faster data processing.
- Developed secure and user-focused features using JWT authentication and role-based access control, ensuring reliable system behavior and controlled access across multi-role applications.
- Collaborated with cross-functional teams in Agile environments to deliver production-ready solutions, reducing system issues by 35% and supporting consistent deployments using CI/CD pipelines on Azure.

TECHNICAL SKILLS

Programming Languages: C#, JavaScript (ES6+), SQL.

Frontend Development: React.js, HTML5, CSS3, Responsive Web Design.

Backend Development: .NET Core, ASP.NET Core (MVC, Web API), RESTful API Development, Entity Framework Core (EF Core), LINQ.

Database Management: SQL Server, Query Optimization, Indexing, Data Modeling.

Authentication & Security: JWT Authentication, Role-Based Access Control (RBAC), ASP.NET Core Identity.

Testing & API Tools: Unit Testing, Integration Testing, Swagger/OpenAPI.

Version Control & DevOps: Git, GitHub, CI/CD Pipelines, Azure.

Development Practices: Full Stack Development, End-to-End Application Development, Cross-Platform Web Applications, Agile (Scrum), SDLC.

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Mar 2022 - Aug 2024

Neviton Softech Pvt Ltd

- Built end-to-end web application features using ASP.NET Core, React.js, and SQL Server, enabling seamless order processing workflows and significantly reducing manual intervention and improving operational efficiency across business workflows.
- Improved API performance by redesigning REST endpoints with asynchronous programming and EF Core query optimization, lowering response times by 20% and improving system responsiveness under peak load conditions.
- Developed responsive and dynamic user interfaces using React.js, HTML5, and CSS3, applying responsive web design principles to improve cross-device compatibility and user experience.
- Implemented secure authentication and authorization using JWT and role-based access control, safeguarding sensitive data and enforcing controlled access across multiple user roles.
- Increased report generation speed by 40% through SQL Server query tuning, indexing strategies, and optimized data retrieval for high-volume datasets.
- Reduced production issues by 35% by introducing structured logging, input validation, and improved exception handling across backend services.
- Collaborated closely with product managers and UI/UX designers to translate business requirements into scalable full stack solutions aligned with user needs and improving feature delivery efficiency.
- Developed and executed unit and integration tests, improving code coverage and ensuring stable releases across application deployments.

Associate Engineering

Jan 2018 - Sept 2019

Bullhorn, Inc

- Developed backend services using ASP.NET Core and EF Core to clean, transform, and process legacy data, improving data reliability and ensuring consistent availability for application workflows.
- Created RESTful APIs and integrated them with frontend components using JavaScript, enabling reliable data exchange and maintaining consistent behavior and improving data flow reliability across application layers.
- Built user-facing features using HTML5, CSS3, and JavaScript, improving usability, responsiveness, and accessibility across different devices and screen resolutions.

- Performed API testing and documentation using Swagger/OpenAPI, reducing onboarding time for new developers by 25% and improving API clarity and usability.
- Fixed defects across controllers, services, and database layers by analyzing root causes, improving system stability and reducing recurring production issues.
- Collaborated with QA engineers and product teams to validate features and edge cases, ensuring alignment with business requirements and successful release outcomes.
- Enhanced database performance by refining SQL queries and optimizing EF Core data access patterns, enabling faster data retrieval and improving application responsiveness.
- Used Git for version control and followed Agile (Scrum) practices to support consistent sprint delivery, code quality, and effective cross-team collaboration and timely sprint delivery.

PROJECTS

InLumin Healthcare E-commerce Web Application

- Developed a full stack healthcare e-commerce platform using ASP.NET Core, SQL Server, and JavaScript, enabling secure product browsing, purchasing, and streamlined order management and improved transaction handling for healthcare users.
- Implemented product catalog and advanced search functionality using LINQ and EF Core, improving query efficiency and enabling faster retrieval across large healthcare datasets.
- Configured role-based access control with JWT authentication, ensuring secure user interactions and controlled access across admin, vendor, and customer roles.

TalentRover Recruitment Application

- Supported backend services using ASP.NET Core and EF Core by resolving production issues and refining data handling logic, improving reliability and consistency of recruitment workflows.
- Built RESTful APIs with pagination, validation, and structured error handling, enabling efficient recruiter data access and reducing API-related failures in production.
- Debugged application and database issues across API and service layers, improving system stability, reducing downtime, and ensuring consistent user experience.

EDUCATION

Bachelors of Technology in Computer Science

Ballari Institute of Technology & Management | Karnataka, India

CERTIFICATIONS

- Full-Stack Web Development with React - **Coursera**
- Meta Front-End Developer Professional Certificate - **Coursera**
- Meta Back-End Developer Professional Certificate - **Coursera**
- IBM Full Stack Software Developer Professional Certificate - **Coursera**
- Microsoft .NET Full Stack Developer Professional Certificate - **Coursera**
- Developing Cloud Applications with Node.js and React - **Coursera**
